

WeSniP Well Care Information & Resources Handout

Recommended Flea Products

Topical Treatments

(Applied to the back of the neck, near the shoulder blades. See packaging for dosage, weight and age requirements):

- **Advantage II**
- **Advantage Multi**
- **Frontline**
- **Revolution**
- **Advantix** (ONLY use on DOGS. Highly toxic, possibly fatal, to cats)

Diatomaceous Earth

(only use **FOOD GRADE**)

Diatomaceous Earth (dried shellfish) can be used as a **natural flea preventative**, which kills fleas by dehydrating them. Check with local your pet food & farm supply stores for availability. See attached blue *Flea and Feed Handout*

- We do not recommend using any other over the counter flea treatments
- Check with your local vet for other recommended flea treatments
