

Making spay & neuter accessible & affordable.

Did you know??

- Cats can go into their first heat as young as 4 months old.
- Cats can have anywhere from 1-9 kittens and up to 3 litters per year.
- Cats can go into heat when their kittens are only 4-5 weeks old.
- Cats will continuously go in and out of heat until they get pregnant or the weather falls below freezing temperatures.
- Male cats become fertile at about 6 months of age and will travel several miles to "visit" many female cats in one day.

**WeSNiP can fix cats once they are
3 months or 3 pounds!**
